

# HEALTHCARE PROFILE

## Nurse Call System

- Wire/Wireless
- IP Based Controller
- Digital Micro Control Based

## Queue Management System

- Wire/Wireless
- Standard & Customised
- MIS Reporting - Data Logging

## Informational Display System

**BAID POWER SERVICES Pvt. Ltd.**

[www.baidpower.com](http://www.baidpower.com)

# Introduction

We have designed and installed different type of Nurse Call Systems to cater to requirement of different Hospitals as per their size and operation complexities. Ours Nurse Call Systems are approved by leading consults like: NBCC (INDIA) Limited, New

## We offer a wide variety of Nurse Call System

### A. Nurse Call Monitoring Systems

- **IP Based System**

1. R7 - IP Based
2. R7W. - Wireless WIFI Based
3. R8 - 7" LCD Touchsreen Display

- **Micro Controller Based**

1. 644 - 2" Segmented Display  
Chronological Order
2. 644CB - Code Blue  
Highlighted Display
3. 644CBA - Alpha Numaric Numbering  
Code Blue Digital Display
4. 644CBAW - Wireless Radio Frequency  
Communication Facility

- **Digital Nurse Call System**

1. LED Series I-10
2. Digital Series D-20/D-30

### B. Queue Management Systems,

1. Standard models- wired
2. Standard models – wireless
3. Customized solutions

# Why Nurse Call Monitoring System

**Patient Safety:** The primary goal of Nurse Call Monitoring Systems is to enhance patient safety. Patients can use the system to request assistance, alert healthcare providers in case of emergencies, or communicate their needs. This quick and efficient communication helps address patient concerns promptly, reducing the risk of adverse events.

**Rapid Response to Emergencies:** In emergencies or urgent situations, time is crucial. Nurse Call Monitoring Systems allow healthcare staff to respond quickly to calls for help, ensuring that patients receive timely care and attention.

**Efficient Communication:** The system facilitates efficient communication between patients and healthcare providers. Patients can easily communicate their needs, and healthcare staff can prioritize and respond to calls based on the urgency of the situation.

**Increased Patient Satisfaction:** Timely and responsive care contributes to higher levels of patient satisfaction. Knowing that they can easily communicate with healthcare providers and receive prompt assistance when needed enhances the overall patient experience.

**Staff Accountability:** Some systems include recording and reporting features, allowing healthcare facilities to monitor response times and track staff performance. This accountability can contribute to the continuous improvement of patient care.

**Customization:** These systems can be customized to meet the specific needs and workflows of different healthcare facilities. The flexibility in configuring the system allows it to adapt to the unique requirements of hospitals, nursing homes, or other healthcare settings.

## Why BPS NCMS?

**BPS has over hundreds of NCMS installations working satisfactorily for more than 25 years.**

The journey of BPS with Nurse Calling Monitoring System installations over the past 25 years is more than a story of technological achievement. It is a narrative of perseverance, innovation, and a relentless pursuit of excellence. As we look to the future, we are excited to continue this journey, pushing the boundaries of what is possible and continuing to provide solutions that not only meet the needs of today but also pave the way for a better tomorrow.

**BPS's in-house development team has decades of experience in designing and manufacturing of Nurse Call Monitoring Systems.**

In the critical domain of healthcare technology, where efficiency and reliability can significantly impact lives, BPS stands as a beacon of innovation and trust. Central to our success is our in-house development team, a group characterized by its wealth of experience in designing and manufacturing Nurse Call Monitoring Systems. Our design philosophy revolves around two core principles: practicality and the integration of advanced technology. We understand that in a high-pressure environment like healthcare, the usability and reliability of a Nurse Call Monitoring System are paramount. Our systems are designed to be intuitive and user-friendly, ensuring that medical staff can respond swiftly and efficiently. Simultaneously, we incorporate cutting-edge technologies such as wireless communication, real-time data analysis, and mobile connectivity to enhance functionality and adaptability.

**We offer a wide variety of NCMS to suit to requirements of different types and sizes of hospitals/nursing homes.**

Nurse Call Monitoring Systems (NCMS) designed to suit the unique requirements of different types and sizes of hospitals and nursing homes. Our commitment is to provide reliable, innovative, and customizable solutions that enhance patient care and streamline healthcare operations. For large hospitals, our advanced NCMS offer a plethora of features like wireless connectivity, real-time data tracking, and integration. These systems are designed for high efficiency in fast-paced environments, ensuring that patient calls are routed and responded to promptly and effectively.

# About Our Company

“Baid Power Services Pvt. Ltd” is a Kolkata-based MSME unit established in 2003. BPS is NSIC registered, ISO certificated unit. It’s an office, Factory, R & D center are in Kolkata. We are a team of young engineers dedicated to design-manufacture and install of innovative devices in electrical and electronic control devices/equipment.

BPS has years of expertise in Design and Manufacturing products in the field of Power Distribution & Transmission, Steel Plants and other Industries, Health Care institutions for Nurse calls, Railways equipment, Defence, and other consumer segments.

BPS has the advantage of being its own R & D Unit which will help to customize the specific requirement as per customer’s specifications.

The group has established itself as one of the leading names in Nurse Call Monitoring Systems, Queue Management Systems, DC Power Systems,

Queue Management Systems, DC Power Systems, and many products for Health Care Institutions. Our systems are serving the customers relentlessly for over 16 years. Our systems are ISO 9001:2015 Certified.

BPS is a diversified manufacturing enterprise providing product and solutions in healthcare and power control and distribution segments. With over 35 years of experience we have satisfied our customers by providing right solution, at right time at right cost. Striving to be ahead of the technology curve, we are integrating innovation and providing cutting edge technology to our customers.

and technology we strive to take “Make in India” forward. With more than 45 + products and counting we are constantly innovating for our customers, with some of our products competing with global leaders.
