

Voltage Relay

Function

Detects situation of under voltage and Over voltage. Also actuates trip/alarm circuit.

Application

Float cum boost Battery chargers for power plants, Aux. supply, DC sources and power supplies for telephone Exchanges etc.

Specification:

- Aux. Supply: 240/110 V (AC) , 12/24/110/220 V DC
- Sense Voltage : 20-30 V , 40-60 V, 80-150 V, 170-270 V
- Output : 2 Change-over (Potential free)
- Sensing : DC source voltage
- Indication : LED (Aux., UV, OV, Trip)
- Mounting : Rail/ Panel
- Enclosure : ABS molded
- Dimensions : 60x70x130
- Reset : Auto / Manual
